

500kVA HazSpec Generator with added **Safety Features**

HazSpec

by **John F Hunt** POWER 

Feature

- Hot dip galvanised sound attenuated enclosure
- Powder coated white RAL 9001
- Forklift pockets – complete with rubber bumper Protection
- 4 Pole circuit breaker with earth leakage Protection
- Dse 8610 deep sea control panel
- Battery isolator
- 2000 Ltr bunded fuel tank complete with 3 way Valve
- Plastic coated locks and handles. Lockable Canopy with common single key
- Water separator filter
- Sump oil vac pump
- Residential muffler
- Copper busbar hardwire with microswitch Protection over hardwire door
- Central lift point
- Emergency stop button
- Alternator Ref: MECC ALTE

We stock a range of generators with a bespoke "HazSpec" specification to combat the serious safety risk of operating diesel generators in hazardous or explosive environments.

Chalwyn valves and spark arrestors have been factory fitted to our John F Hunt Power specification FusteQ generators to create our exclusive "HazSpec" units.

On these HazSpec generators, the chalwyn valve blocks the air intake system, cutting off all air intake along with potential external fuel sources; whilst the spark arrestors prevent the emission of flammable debris from the engine.

Standby kVA	Prime Power kVA	Engine Make / Type	Governor	Tank Capacity (Litre)	Fuel Consumption per hour (Litre)			dBA @ 7m	Size (mm)	Wet Weight (kg)
